48 Channel Console

56 Channel Console

SL4000 G Series Mainframe Sizes and Layout

Dimensions are external.

Add 160mm for trim.

Add 164mm for each additional centre section.

All consoles are 1030mm (40.5") high and 1220mm (48") deep.

I/O modules must be in groups of eight.

Patch and producer's table can be at either end.

The triple centre section must be kept together but may be anywhere between the producer's table and patch.

Channels can be renumbered e.g. |Prod|A-H|1-16|SL 685|CUES|SL 651|17-40|Patch|

In which case patch will follow the console's layout.
